

TS-100 Alfalfa

TS-100 brand Alfalfa is an exceptional forage yielding alfalfa. It delivers a good valued seed to meet the demands of forage producers in the Upper Midwest. TS-100 performs best in high producing, well-drained soils. It has a defensive disease, insect and nematode resistance package that helps defend itself in adverse environments. TS-100 is an alfalfa variety for the dairy or beef producer that meets their high tonnages needs of dairy quality forage.
